HIGHER SITES is Embassy Site Services' newsletter, designed to keep our partners, affiliates and clients up to date with the latest happenings at Embassy Site Services – our work, our team and our ongoing community contributions, too.

And that's a wrap! As 2025 comes to a close, it's time for the team at Embassy Site Services to reflect on what has been another action-packed year for our scaffolding, division, roofing division and Academy.

In this edition on Higher Sites, we look back at 2025 as a whole and some of the more recent news from the team.

Finally, the team wishes our clients, partners and community a very Merry Christmas and a Happy New Year!

GIVING BACK: CHRISTMAS AT EMBASSY

To wrap up another successful year, Seb and our marketing team once again set out on the road for a day of Christmas charity donations.

Firstly, the team paid a visit to The Salvation Army in Barking, where we donated an assortment of food bank items for those that need it most. It's always a pleasure to support such an amazing charity in our local area, that does so much for those that need that extra support.

The team also paid a visit to our valued client Wates. We donated a selection of children's toys for their social value team to distribute over the Christmas period to those families most in need. Their work in our communities is vital and we are proud to be able to play a part in what they do.

It's the season of giving here at Embassy!

COMMUNITY AND ACADEMY

Here is some of the news from the last quarter of 2025.

WEST HAM UNITED FC EMBASSY SPONSORSHIP

In November, Embassy Site Services were proud to be the official programme sponsor of West Ham United FC, in their game against Brentford.

As a business with **our roots firm in East London and Essex**, the chance to appear alongside a team that many in our business and area support was something we couldn't be more grateful for.

The day gave some of our Embassy Family a chance to experience a matchday they will never forget! And, of course, the result gave everyone something to cheer about!

Many thanks to **Rhys Meleady and his team at Club London West Ham** for organising this spectacular day.

HARNESS TRAINING AT EMBASSY ACADEMY

This quarter, Seb conducted harness training for some of our team, and here is why it's so important:

Correctly fitting and adjusting the harness is vital to prevent serious injury when working on scaffolding projects.

Here at Embassy, Health and Safety is at the heart of everything we do, and we are constantly looking for new ways to raise the high standards we set ourselves.

Our training sessions through Embassy Academy maintain these standards for all of our operatives.

2025 HIGHLIGHTS

Let's take a look back at some of the great things the team have achieved this year!

GAINING OUR PAS2030 ACCREDITATION

In Q2, we were delighted to announce that we had gained our PAS2030 accreditation for the installation of pitched and flat roofing under the Building Fabric Measures (BFM) section, of which pitched and flat roofing play a major part.

By achieving PAS 2030 certification, we demonstrate our commitment to quality, project satisfaction, compliance and sustainability. We are now the go-to solution for your roofing regeneration and retrofit schemes on social housing.

If you would like to know more about our PAS2030 accreditation or are looking to secure scaffolding and roofing for your social housing retrofit project,

OUR FIRST SAFETY SEMINAR EVENT

Back in April, we hosted our very first Serious About Safety Seminar, with the fantastic guest speaker, Justin Manley.

The session brought together the full Embassy team, including operatives, management, apprentices, admin staff and our valued clients.

We would like to again thank the whole team for organising the event and of course, Justin, for putting together such an emotional and thought-provoking session.

2 YEARS OF EMBASSY ACADEMY

The team also celebrated 2 years of Embassy Academy, our in-house training centre.

From apprentices and labourers joining us and kickstarting their careers, as well as providing training for our clients own staff, we have seen fantastic growth across the business because of Academy's impact.

This includes 7 career promotions and 25 apprentices and labourers who have been successfully onboarded through Embassy Academy.

2025 HIGHLIGHTS

Let's take a look back at some of the great projects the team has worked on this year!

SCAFFOLDING PROJECTS

It has been another exciting year for our Scaffolding Division. Our teams have worked together to bring our client's project to life, across a variety of project sizes.

Over the course of 2025, our teams have provided first-class innovation to maximise budget and quality.

We have worked on some fantastic projects this year for our clients, including Hendon Waterside, Blind Veterans UK, Hertford Social Housing other PAS2030 project related scaffolding work.

We have also secured some impressive projects that we will be kickstarting in early 2026. We can't wait to begin working on these in the new year!

ROOFING PROJECTS

Our Roofing Division has once again gone from strength to strength.

The team have been working on a variety of impressive roofing projects across the country including BinBrook House, Hendon Waterside, Greenman Lane and more.

Our Roofing Division have flexed their muscles this year installing a wide range of pitched and flat roof solutions including liquid, hot melt, brown, green and blue roofs.

Special thanks must go to the whole team who have helped grow our roofing division into what it is today. We couldn't have done it without such a professional and dedicated team.

@EMBASSYSS

FINALLY... THANK YOU

Finally, here is a message from our management, thanking the whole team for their hard work, dedication and achievement through 2025. Here's to even more success in 2026!

2025 has been another fantastic year for our business, and we are so proud of how the whole team has worked collaboratively on reaching our goals.

Firstly, gaining our PAS2030 accreditation earlier this year was a massive milestone for us as a business. It reflects our ongoing commitment to quality, project satisfaction, compliance and sustainability. Our ability for our two divisions to work seamlessly allows us to ensure that the PAS2030 accreditation brings us even more success going into 2026!

Across both of our Scaffolding and Roofing Divisions, the attention to detail and quality of our work has shone through. Holding ourselves to these high standards is a major part we have all played in our successes this year.

I am also very proud of the progress we have made in building Embassy Academy for its second year. I am thrilled about the opportunities we have taken to facilitate growth within our Academy in 2025.

Of course, none of this would even be possible if it wasn't for our valued clients. We know how important our work plays in the success of your projects, and that's why we have always aimed to go above and beyond what is expected from us as a supplier. We've built some incredible new relationships this year, as well as retaining connections with those who we have supported for a long time. We wish you all the best for the festive season, and into 2026!

And finally, without you, our amazing team, Embassy Site Services would not be the same, we cannot thank you all enough for your efforts over the course of 2025. So to those working tirelessly on site, to our management team here at base and of course our yard and back office staff who make the whole business tick.

On behalf of Henry, Rebecca, Dan and myself, we wish you all a very Merry Christmas, and a well deserved break.

**Here's to 2026,
let's continue 'Raising The Game'.**

Matthew Kania, Head of Pre-Construction and Estimating

MARATHON COMPLETED: SEB IN NEW YORK

The team at Embassy would like to extend a massive congratulations to our Senior Health And Safety Advisor, Seb Lik, on completing the New York marathon last weekend.

This means he is now just one marathon away from completing the Abbott World Marathon 6. This follows a great effort from Seb to complete the Tokyo Marathon earlier this year.

Now that's some achievement!
